RECEIVES OVATIONS
When Number One, Volume One of the Torrance Enterprise appeared on the streets of Torrance last Thursday evening, people of that city were surprised and pleased. Immediate praise was heard from all sides when they looked through a twelve page paper full of news of the Industrial City and the support it received from the business firms and news gatherers speaks well for that city. It shows they want a live newspaper and are willing to support it in a way that will do credit to themselves, their town and the newspaper.

No one overlooked the fact that advertisers get double their money's worth by inserting an advertisement in the Torrance Enterprise or the Lomita News Letter, as this is published in both papers for the same rate, and at present there are 1200 papers circulated in the two cities. The papers are both printed by the same management, who have written proof that advertisers are being patronized in all sections where these two papers are circulated. There is no question to be discussed any more as to whether it pays to advertise in these two local papers. Their power as advertising mediums has been established; their standing has passed the speculative stage as to support and their purpose. Subscribers realize that we spend all our time in boosting the communities which we represent, bringing out the most helpful suggestions of what these two cities offer the prospective home seekers, and it is all done by never deviating from facts. No one who ever gets information concerning Torrance or Lomita has ever questioned a single assertion made in the columns which referred to the advantages offered in those communities. Any business built up on this kind of a foundation cannot help but grow and win the confidence of its subscribers.

YES, IT PAYS
Every newspaper in the world is constantly confronted with the question, "Does it pay to advertise?" To all these inquiries, we are promptly referring them to W. A. Renn of the Renn Grocery, Lomita, and the Harbor City Grocery, Harbor City. Last week Mr. Renn had a full page advertisement in the Lomita News Letter and in the Torrance Enterprise, announcing that on last Monday he would cease a credit business and sell strictly for cash. In his announcement advertisement he quoted some big cuts in grocery prices. The paper was mailed out Friday and as soon as Saturday morning he began to receive mail orders with check inclosed for groceries. Since then he has been receiving orders through the mails every day—and he delivered them. "Don't tell me it does not pay to advertise in the Lomita and Torrance papers," was his enthusiastic reply to a question of how things were going along on the new cash basis. His advertisement this week hits the high cost of groceries square from the shoulder. Yes, it pays to advertise in these two papers, which are both printed by the same management.

THE BOY SCOUTS
"If you really want to do something for your community, do it for the boys," is a slogan that has been adopted by the city boosters of Coachella, Imperial county, California. And they are doing it with the idea that they have come to realize that by helping the boys who are to grow up and take the places of their fathers in all walks of life, it is far more important to help the lads of their town than by looking after their business and crops. Ex-president Roosevelt said that the most valuable asset any city, state or nation had was in its boys, and yet they receive, in many instances, less attention than fine breeds of stock around them. The centers are taking up the movement through the Boy Scouts and are doing a wonderful work by aiding this organization which teaches them nothing but good.

HOW'S YOUR BATTERY
One of the most important businesses in connection with the automobile, and which is of special interest to owners of cars, is that of Oliver C. Rapier and A. J. Horasta, who recently opened the Torrance Battery and Ignition Shop. The Rapier, who comes with unlimited experience in the battery game from a large electrical and battery service house in Los Angeles. They have installed the Western Battery, and claim this as one of the leading batteries on the market today. Your battery, no matter of what make, can be repaired, recharged, and refilled here with a free testing service.

IN NEW HOME
L. C. Wesley of the Torrance Hardware Company, now occupies his new home in South Torrance near the Lomita Boundry, having recently completed the structure, the work being done by Contractor Nelson H. Reeve.

C. E. Trotman and son Dawson made a trip by motorcycle to San Diego Saturday and returned Tuesday. He says they were caught in a rain storm and skidded and as a result he has a black eye, and from the limp, he must have been shaken badly. Of course Charles might have slipped across the border, and we wonder how the other fellow looks—and who is going to pay the doctor bill. Lots of things might have happened—but we believe what he says.

Mrs. M. E. Draffen of South Cypress street has rented a house on South Narbonne and will move in soon.
